Response To Amendment

In view of the applicants' amendment filed April 07, 2003, the rejection of the claims under 35 USC 112, second paragraph has been withdrawn.

However, the claims are subject to a new ground of rejection under 35 USC 112, second paragraph.

Claim Rejections - 35 USC § 112

Claims 1-26 are newly rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim s 1, 5, 8, 10, 12 and the claims dependent therefrom recite the broad recitation "***crystallising plastic material***",

Art Unit: 1711

"takes up more than half", "treating plastic material", "shape of a bulk material stream of four-sided", and "each of increased temperature", and the claims also recite "in particular polyethylene terephthalate", "preferably more than 2/3 of the area ...", "in particular polyethylene terephthalate", "in particular rectangular cross-section" "preferably from the opposite side", which are the narrower statements of the range/limitation.

The terms "**lower and higher**" in claim 13 is a relative term which renders the claim indefinite. The terms "**lower and higher**" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. Clarification is requested.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
